

VILLAGE OF HAVERSTRAW

ELECTRICITY SUPPLY PROGRAM

The Village of Haverstraw is participating in an electricity supply contract through the Rockland Community Power program. This program will provide eligible residents and small businesses with the benefits of 50% renewable electricity supply at competitive rates.

This community choice aggregation (CCA) program enables municipal leaders to leverage the purchasing power of residents and small businesses to negotiate competitive rates for their electricity supply, protect consumers and support renewable generation sources.

Eligible residents and businesses will receive a letter in mid-March with info about the program, their choices, and info about how to opt-out.
